

# INDEX OF PERSONS

No more than a limited attempt has been made to identify individuals and to group references accordingly. Persons, including bishops, abbots and lay magnates, are identified by family names where feasible. Otherwise, lay magnates are identified by their titles and ecclesiastics by their forenames. The Index of Institutions includes all references to bishops (by see) and to religious houses and their heads (by place), including those where the name of the individual is not known. Interpolated family names are shown within square brackets.

Names containing the elements Sancta or Sancto are alphabetised as Saint.
